

Outline to the Life of David Interactive Kids Bible Software

A special resource for installing and teaching with the software from Rotation.org

The Life of David software is being provided to the members of Rotation.org for their free use at church and at home by Educational Publishing Concepts. While older, it is still fun to teach with, but you'll want to make two tweaks to do so, read on! This outline is being provided as a courtesy from Sunday Software.

Before teaching with the software, check to make sure the VIDEOS work in the Bible Time

Theater. If the curtain just opens and closes without playing the video, you need to install Quicktime 2.1 from the downloaded software. Open the QT21 folder, RIGHT click the QT32 installer and select "Run as Admin," then run the installation. If Windows gives you a caution message, bypass it. The program is safe to install. If Quicktime asks to "check for other versions," select SKIP and continue.

To make the program appear BIGGER on your screen, you will want to adjust your Windows Display Scale setting to 150% before you start the software. To do so, read the instructions <https://www.rotation.org/topic/important-technical-notes-and-helps>

Outline to the Life of David Software

David Fights Goliath — the main animated story section.

Bible Time Theater: (3 clips): David and Goliath — David Spares Saul — Samuel Anoints David

Discover the Bible:

The Discover section contains not only the brief stories listed on the side of the screen (which you can scroll through and select) it also contains remarkably large parts of scripture. To access them, you need to click on the left or right "hands" on the bottom toolbar. There you will find all the Kids Application notes and articles scattered throughout the pages. Any portion can be "read aloud" by clicking the traffic light. By the way, none of the six select stories have notes associated with them. You now have a "talking Bible" on your hands for most of the stories about David!

Teaching Tip: Each of the Kids Application Notes has discussion potential. See if the kids can find the corresponding verses that anchor the notes in that area of scripture. There are quite a few interesting David stories that the kids will enjoy. Consider cross referencing them with a Bible Atlas, map or Atlas software.
